Agnus SK

Product Designer

I design mobile apps from research to working prototype, focused on what people actually need.

EXPERIENCE

SyncFit · Social Fitness Platform

Case study · UX research, UI design, prototyping · 6 weeks

A fitness app that helps you find workout partners nearby.

- Track your workouts and progress.
- Discover and register for fitness events around you.
- Face verification marks people who are verified, so meeting someone new feels safer.

Sartora · Wardrobe management

Case study · UX research, UI design, prototyping · 6 weeks

An app that helps you decide what to wear using the clothes you already own.

- Luna, the AI stylist, suggests outfits for any occasion.
- Keeps your clothes organised in a digital wardrobe.
- Takes care of your laundry, from pickup to delivery.
